

INSTRUCTIONS FOR THE PREPARATION AND SUBMISSION OF THE CONTRIBUTIONS TO THE PROCEEDINGS OF SPW8

Preparation

The manuscripts must be prepared using the ASP template “aspauthor.tex” that can be found in the zipped archive “asp.tar.gz” on the SPW8 webpage.

The same archive contains a detailed manual for the authors (“manual2010.pdf”) provided by ASP.

Copyright

A copyright form must be filled and signed. The form can be found in the archive “asp.tar.gz”. A scanned copy of the signed copyright form must be submitted together with the manuscript.

Permissions

In case the author wishes to include in his/her contribution any image that has been published previously, which belongs to someone else or which has been used elsewhere, he should fill a Permission to Use form and send it to the owner or copyright holder. The form can be found in the archive “asp.tar.gz”. Once the permission has been received, an acknowledgment of the source should be included at the end of the figure caption (see <http://www.aspbooks.org/> for more details).
